

## Species *Azobacteroides pseudotrichonymphae*<sup>Ts</sup>

---

### Etymology

[pseu.do.tri.cho.nym'phae] N.L. gen. n. *pseudotrichonymphae*, of the flagellate protist genus *Pseudotrichonympha*

### Nomenclatural type

[NCBI Assembly: GCA\\_000010645.1](#)<sup>Ts</sup>

### Classification

*Bacteria* » *Bacteroidota* » *Bacteroidia* » *Bacteroidales* » *Azobacteroidaceae* » *Azobacteroides* » *Azobacteroides pseudotrichonymphae*<sup>Ts</sup>

### References

Effective publication: Hongoh et al., 2008 [1]

### Registry URL

<https://seqco.de/i:31917>
