

## Species *Zeuxoniibacter abyssi*<sup>Ts</sup>

---

### Etymology

[abyssi] N.L. gen. n. *abyssi*, from the abyss, deep or bottomless pit; N.L. gen. n. *abyssi*, from the deep

### Nomenclatural type

[NCBI Assembly: GCA\\_033470255.1](#)<sup>Ts</sup>

### Description

A marine bacterium found in the deep ocean and in association with sponges

### Classification

*Bacteria* » *Pseudomonadota* » *Gammaproteobacteria* » *Tethybacterales* » *Perseibacteraceae* » *Zeuxoniibacter* » *Zeuxoniibacter abyssi*<sup>Ts</sup>
