

Genus *Spongiifermentum*

Etymology

[Spon.gi.i.fer.men'tum] **L. fem. n.** *spongia*, sponge; **L. neut. n.** *fermentum*, fermentation; **N.L. neut. n.** *Spongiifermentum*, a bacterium with the ability to ferment within the sponge environment

Nomenclatural type

Species *Spongiifermentum lactens*^{Ts}

Description

A bacterium with the ability to ferment within the sponge environment

Classification

Bacteria » *Pseudomonadota* » *Gammaproteobacteria* » *Spongiifermentales* » *Spongiifermentaceae* » *Spongiifermentum*
