

## Genus *Porifericomus*

---

### Etymology

[Porifericomus] N.L. neut. pl. n. *Porifera*, the phylum of sponges; L. masc. n. *comes*, companion; N.L. masc. n. *Porifericomus*, a companion of a sponge

### Nomenclatural type

Species *Porifericomus azotivorans*<sup>Ts</sup>

### Description

A gammaproteobacterial symbiont of a sponge

### Classification

*Bacteria* » *Pseudomonadota* » *Gammaproteobacteria* » *Porifericomitales* » *Porifericomitaceae* » *Porifericomus*
