

## Species *Venetifunis florensis*<sup>T</sup>

---

### Etymology

*florensis*

### Nomenclatural type

Strain: AZB 4344 = BACA 587

### Classification

*Bacteria* » *Cyanobacteriota* » *Cyanophyceae* » *Leptolyngbyales* » *Trichocoleusaceae* » *Venetifunis* » *Venetifunis florensis*<sup>T</sup>

### References

Effective publication: Luz et al., 2023 [1]

### Registry URL

<https://seqco.de/i:48647>
