

## Family *Roseiterribacteraceae*

---

### Etymology

*Roseiterribacteraceae*

### Nomenclatural type

Genus *Roseiterribacter*

### Classification

*Bacteria* » *Pseudomonadota* » *Alphaproteobacteria* » *Rhodospirillales* » *Roseiterribacteraceae*

### References

Effective publication: Nakai et al., 2024 [1]

Assigned taxonomically: Nakai et al., 2024 [1]

### Registry URL
