

## Family *Natronomonadaceae*

---

### Etymology

*Natronomonadaceae*

### Nomenclatural type

Genus *Natronomonas*

### Classification

*Archaea* » *Methanobacteriota* » *Halobacteria* » *Halobacteriales* » *Natronomonadaceae*

### References

Effective publication: Zhu et al., 2025 [1]

### Registry URL

<https://seqco.de/i:52269>
