

Genus *Hennevivens*

Etymology

[hen.ne.vi'vens] **Danish n.** *Henne*, Danish parish; **L. masc. pres. part.** *vivens*, living; **N.L. masc. n.** *Hennevivens*, Microbe named after the Danish parish of Henne, near which the genome of the type species was recovered.

Nomenclatural type

Species *Hennevivens glebicus*^{Ts}

Description

Genus established on the basis of phylogenomic comparisons to GTDB R226 and 16S rRNA classifications to Silva 138.2. Formerly known as genus DAHVFK01 in GTDB R226. The description of the genus is the same as for its type species *Hennevivens glebicus*.

Classification

Bacteria » *Pseudomonadota* » *Betaproteobacteria* » *Burkholderiales* » *Henneviventaceae* » *Hennevivens*
