

Species *Methyloumidiphilus alinensis*

Etymology
alinensis

Nomenclatural type
Unknown

Classification
Unknown

References
Original (not valid) publication: Rissanen et al., 2018 [1]

Registry URL
<https://seqco.de/i:56555>

References

1. Rissanen et al. (2018). Gammaproteobacterial methanotrophs dominate methanotrophy in aerobic and anaerobic layers of boreal lake waters. *Aquatic Microbial Ecology*.
