

Family *Aquaspirillaceae*

Etymology

Aquaspirillaceae

Nomenclatural type

Genus *Aquaspirillum*

Classification

Bacteria » *Pseudomonadota* » *Betaproteobacteria* » *Neisseriales* » *Aquaspirillaceae*

References

Effective publication: Chen et al., 2021 [1]

Registry URL

<https://seqco.de/i:34354>

References

1. Chen et al. (2021). Phylogenomics and molecular signatures support division of the order Neisseriales into emended families Neisseriaceae and Chromobacteriaceae and three new families Aquaspirillaceae fam. nov., Chitinibacteraceae fam. nov., and Leeiaceae fam. nov. *Systematic and Applied Microbiology*.
