

## Species *Aeolococcus gillhamiae*<sup>Ts</sup>

---

### Etymology

[gill'ham.i.ae] N.L. gen. n. *gillhamiae*, in honor of Australian Subantarctic voyager and pioneer Mary Gillham.

### Nomenclatural type

[NCBI Assembly: GCA\\_003244045.1](#)<sup>Ts</sup>

### Description

Based on phylogenomic analysis of 120 concatenated single copy proteins. MSA was generated with GTDB-Tk v1.3.0 and tree was reconstructed with RaxML v8.2.12.

### Classification

*Bacteria* » *Dormibacterota* » “Dormibacteria” » *Aeolococcales* » *Aeolococcaceae* » *Aeolococcus* » *Aeolococcus gillhamiae*<sup>Ts</sup>
